All 39-49-11W5, Shelly Oil, \$138,882, \$217.05.

5 1/2 4-50-11W5, Shelly Oil, \$75,840, \$237.

FIRE DEPARTMENT REPORT

This month's report from your fire department is not quite as grim as some of the previous ones, but it does represent over \$600,000 gone up in smoke in four calls; and brings to 39 the total number of calls received this year. That's just one short of the total for all of 1959, and the busiest season is yet to come. Needless to say it's hardly a record to be proud of.

Water Tower Started

Picture by Curt's Studio.

Work is underway on the Elevated Water Reservoir for the Town of Drayton Valley. In this picture T & M Bathold Drilling are digging the hole for the tower. In the picture may be seen, left to right: Tom Stark, Ken Ross and Young Earl Gertow.

General Contractor for the Tower Reservoir is Horton Steel Work Ltd., of Red Deer. Consulting Engineers are Madden, Davis and Brown.

Picture by Curt's Studio.

Nadon Paving Company, of Edmonton, started work on the street paving program for the Town of Drayton Valley. Approximate cost of the project is \$82,000. It is expected that a month will be required for the job, which will require some ten thousand cubic yards of dirt removed, with from 16 to 18 inches of gravel fill replacing it, with four inches of asphalt to top it off.

Work started on one-block long 51st Street, where the Townparks are seen hard at work. Paving will be done on 51st Ave. from 50th Street to 52nd Street and on 52nd Ave. from 50th Street to 52nd Street.

On 52nd Ave. storm sewers will be dug down about twelve feet and placed in before the street is paved. Foreman on the project is Leo Nadon.

In order to help hold this record down as much as possible, your fire department has started a program of home inspection in which members of the department will eventually be calling on every home in Drayton Valley to check and advise on any hazards they find in the home. This a free and voluntary service on behalf of the members; so if you see the fire truck parked in your block and men calling at each home, pull on a shirt, welcome them, and give them all the cooperation they need. They're coming to help you minimize the danger of fire in your home, with its resultant loss of belongings and maybe even loved ones.

We also plan to run a weekly series of articles in this paper on fire prevention in the home, and hope that you will watch for it and take heed to what is written. We'll try to keep them from being dull.

If anyone is interested in joining the fire department, please phone Chief Don Greiner at 421 and he will give you all the details. We are looking for a few men perfectly working in town, and though the pay is terrible and the hours are worse you'll find it a very gratifying way to serve your community.

The following is a list of calls received in the month of July and the nasty little details for each:

July 5 Archie Grinde House Trailer Cause - Fastly writing (Gains - Nil)

July 6 Pete Hartz Back seat of auto Cause undetermined

Em. damage \$50.00

July 7 Garbage truck Cause - Picked up burning garbage Em. damage \$250

July 29 R. Bond trailer Cause - undetermined Em. damage \$350.00

POLICE COURT

While Magistrate Clendenning has been absent of vacation for the past two weeks, Magistrate Hancock has been taking his place in Drayton Valley Police Court.

Magistrate Hancock was Commending Officer of R.C.M.P. K Division until his retirement a few years ago. K Division takes in all of the Province of Alberta. Magistrate Hancock is now magistrate in an Edmonton court.

In police court recently one was fined \$15, and costs for illegal possession of liquor.

Having no drivers license on his person cost another man \$20, and costs. Two charges of intoxication brought fines of \$15, each, and costs, and two men, arrested for causing a disturbance in licensed premises were fined \$15, and costs.

Local R.C.M.P. officers had four speeding cases waived in to this court from other points in Alberta. Fines in all four cases were approximately \$35, each and costs. One man was fined a total of \$60, for converting (continued Insert page A)

Looking at Recreation

SURVEYS.....SURVEYS.....

Since my arrival here I have spent a vast portion of my time trying to survive in a stormy sea of survey sheets. I have been compiling, tabulating, working at percentages and studying the angles in order that maximum results may be obtained from this survey. This interest survey, as you recall, was taken up last February and March by the Drayton Valley Athletic Association. At first glance, the survey, on the whole, did not seem to be much of a success since it covered only 15.9% of the town population. A closer look, however, revealed that this survey did bear fruit, and when studied closely, the survey pointed to a good, practical, miniature picture of the recreational likes and dislikes of the people of Drayton Valley.

This interest survey, in other words, gives a fine cross-section of the town's people, since it covers every age from 8 to 80 years and has the opinions and suggestions of men, women and children in every occupation, trade and profession. It is not by any means as complete as we would like it to be, however, it will serve the purpose nicely and will be of great advantage as a guide and a reference in planning for recreational activities and facilities for the town and its people.

One thing that this survey did prove is that there is a tremendous interest in swimming in Drayton as a family activity. Swimming started a very close second to picnicking, which is outstanding when you consider that in average is higher than such standard family activities as camping, outings, fishing and boating. Half the people making suggestions on the survey sheets suggested the construction of a swimming pool. The other suggestions were in favor of an arena, a recreation centre and some twenty-five other ideas, ranging from dancing classes to a place for coarsing and tobogganing. So, from the miniature, or cross-section picture, presented by the survey, swimming seems to be the future attraction. Now, what about a swimming pool? Well, time will tell, however, the future looks favorable for such a facility.

STEL FOOTBALL MINDED- The response to the call for a reunion for Pee-wee footballers has been very good. If you are between the ages of ten and fourteen years and are under 140 pounds and feel like rubbing shoulders now and then, you are the ones we are looking for. This Pee-wee football has been a tremendous success in some parts of the country, especially in Eastern Canada. In many towns in the East they have informal leagues at the Pee-wee level with such names as "The

Little Big Four", or "The Little Western Conference". These teams are exceedingly popular and sit up untold numbers, both with the boys competing and with the town folks as large. This brand of football has also met with great success in Edmonton and vicinity. The "kids" often take over the field at half-time during Eskimo home games and give Clarke stadium fans a glimpse of their style of football playing. By what I have seen from time to time at Clarke, some of these youngsters are headed for stardom on the gridiron.

I think that this is a town of tremendous possibilities. Football-wise, if we could get the game set up on a Pee-wee basis this fall and work from this as a starting point I feel sure that we will be able to see when the day will come to field a Junior or intermediate team that will do the town justice in outside League competition.

So, boys, if you are interested in "Autumn Madness" drop in to see me at the Town hall any time you wish, or fill in the blank below and send it to me.....

PEE WEE FOOTBALL SURVEY BLANK.....
Would you like to play Pee Wee Rugby Football? Yes.....
No.....
(Ages 10 to 14 years)
(Weight 140 lbs)
Name.....
Age..... Weight.....
Experience.....

The interest in volleyball does not seem very high at this time, either, however, this is a busy time for many with vacations and plenty of outdoor activities and as the time goes on I am sure that interest will increase. Any interested person would do well to pay me a visit at the Town Hall, or fill in the blank below.....

VOLLEYBALL SURVEY BLANK.....
Would you like to play volleyball? Yes.....
No.....
Name.....
Age.....
Experience.....

Would you be interested in coaching in volleyball? Yes.....
No.....

THE OUTSIDE WORLD.....
At this time of year I always like to get out on a limb and do a little crystal ball gazing. I would like to leave Drayton Valley behind for a few minutes and make a downed field in Canadian football. I would like to take a guess on how they will be on the grid iron across Canada in late October, early November and on Grey Cup Day. I think that "Red" Grant's Winnipeg Blue Bombers are still going in Canada. They should finish on top of the Western Conference

beat again. With Kenny Ploos as the quarterback and men like Law, James, Pitts, Sheppard and Shannon.....I can't see them missing.
Secondly, I think the Calgary Stampeders will give the Bombers a race for leadership this year. That is, if they ever get over the "Line Bowl" and if the exciting young Joe Kapp keeps healthy. I think the Cowboys have the best balanced team in the league and I pick them to finish second.

In this place I will have to take the young "Ambs" on British Columbia Lions, despite their weak defensive lineup. Wayne Robinson has two hairy quarterbacks in Randy Duncan and the "Mississippi Gambler", Jim Walden and speed merchants like Bob Peter and Willie Fleming and a lot more. So, beware the Lions will not be punting all season long. They will be roaring from time to time.

I know I am asking for an argument when I pick the "Ever Loving Boks" to finish fourth and out of the charm circle but, let us face it, they are not getting any better. I do not think that any real outstanding men joined the camp this year and Parker, Bright, Kwong and a few other star players are not getting any younger. Football is a tough game, you just cannot go on forever, even if they call you "Jackie Parker".

A revolutionary method of mounting wood is in use at a place near Adelaide, Australia. It virtually eliminates the need for nails in stronger fabrics.

THE COMBINATION OF A WARM, sunny day, in excellent diamond and great support from Drayton Valley fans, helped the local (Cont. on page 6, col. 1)

BASEBALL NEWS
By: Ken Machan
LEGIONAIRE BASEBALL.
After a lapse of two weeks, senior baseball action returned to the local scene August 7th as Malheur journeyed to Drayton Valley for the first game of the Oldfield Baseball League semi-finals.

Unfortunately for the visitors, they were unable to field a full team, so while they won the short exhibition game played for the entertainment of the spectators present, they lost the first semi-final game to the Legionaires by default. Drayton wrapped up the best-of-three series the following Wednesday by taking the return game at Malheur 7-4.

The home team racked up 3 runs in the first inning and added the last in the second, while the Legionaires scored once in the first, third and fourth and added four big runs in the fifth inning to clinch the game and series.

Sunday, August 14th, saw the Legionaires travelling to Leduc for the first game of the series to decide the League championship.

The Chapel Hour

The Potter's Challenge

Taken from "Good Business" by Joel Boehr

The potter centers the clay on the spinning wheel. His thumbs press downward into the clay, then gently, gracefully the potter lifts the sides and it rises to two or three times its original height. In a moment, a spinning mass of slippery clay has been changed into a beautiful, useful vessel.

This act can become sacred to the potter, and perhaps rightly so. It involves life, intelligence, and substance - the life within the clay, the intelligence of the potter's own mind, and the substance he works with his hands. In performing the act, the potter is one with universal power.

By observing the potter and the clay we can find keys to success. We can find insight into ourselves and see who we are and how we can use our unlimited potential. Whether our potential comes forth as a tall and beautiful vase, or as an open, receptive vessel, there is a place in the world that needs the beauty and usefulness that we have and are willing to share.

Whether we are aware of it or not, we are all of us parts of one great universal design, the design to be good and to express good. Every blade of grass, every tree desires to be the best that it can be. All that was created of God wants to express God, or good. God, as the Master Potter, made us in His image and likeness, and we as individual potters have been blessed with the ability to choose and form that which we desire.

Man has made of his own choosing vessels that cannot be filled with good - vessels of destruction and unhappiness. But any man has greater admiration in his heart for good than for evil. Com again.

So often we see less in ourselves than what we are. One of the greatest things we can know is that our potential is limitless. The potential in a lump of clay is limitless; the form of exercise it can take on are without number. The curves and lines of a vessel display the goodness of God's gifts. Hundreds of men die more before the perfect piece emerges from the kiln. Many successes

of our lives are so thin that a fall seems inevitable, even though we have built on good thoughts and deeds. It is then that we need patience, a period of waiting, a pause to think around me. I am so often confronted with a task that is greater than my capabilities.

But someone may say: "I am the potter's soul that collapsed. My life has fallen around me. I am so much more than a helpless mass of fallen clay."

Do you imagine that the potter throws away the clay that has fallen? The substance is the same. The life is there, and the image of the bowl to be shaped is more clearly defined than it was before. The error has been recognized; the vessel that will be forthcoming can only be more satisfying and beautiful than the first. The clay has not disappeared from the potter's sight; it is there before him, ready to be shaped

UNITED CHURCH NEWS

UNITED CHURCH VACATION SCHOOLS HELD AT DRAYTON VALLEY, ALBERTA AND BRASZAU DAM CAMP.

The Drayton Valley Pastoral Charge of the United Church of Canada completed Vacation Schools last week at Drayton Valley and Lodgepole. Mrs. H. Zolmer of Drayton Valley directed the Vacation School which had an enrolment of 110 children. Mrs. Zolmer was assisted by a very competent group of ladies from the Drayton Valley Church. The closing program was presented on Friday afternoon. All of the children participated in the program and received a certificate of attendance.

The Lodgepole Vacation School was directed by Mrs. Norman Peterson of Edmonton. Mrs. Peterson is doing Vacation School work on a voluntary basis under the sponsorship of the Alberta Conference of the United Church. Over 80 children were enrolled at Lodgepole. The closing exercises were held on Saturday morning. Mrs. Peterson was assisted by 3 ladies from Lodgepole.

Children of employees of Calgary Power, Manitoa Construction and other companies at the site of the Braszau Dam will be attending Vacation School at the Manitoa Camp this week. Mrs. Peterson is directing the school with the assistance of which we are at the site of the construction project. Tents are being used to accommodate the program. A registration of between 40 and 50 children is anticipated.

JEHOVAH'S WITNESSES NEWS
Drayton Valley was represented at the "Peace-Pursuing Division" Assembly in Edmonton, Alberta by 55 members of the local congregation of Jehovah's witnesses. Ralph Wikander reported that it was the largest convention of its kind ever held on the Canadian prairies. Delegates attended from

as far away as New Brunswick, Mexico, and Alaska. "The theme of living peace and unity ran right through the program," said Mr. Wikander. "Especially with reference to family affairs and the responsibility of married couples to each other. There is no room for immoral conduct or philandering in the life of a Christian. Persons who practice such things will lose their life both physically and spiritually in the final War of God Almighty."

The convention had 21 departments, such as cafeteria, cleaning, installation, and installation, employing some 2,500 volunteer workers. A closely co-ordinated organization, the convention staff was able to serve meals at over 100 per minute. Incoming delegates from all over the continent were housed in motels, hotels and private homes where arrangements had been made well in advance by the rooming department.

Tons of equipment were brought in from congregations and circuits throughout the western provinces. A battery of 40 stoves, five ovens and four large steam cookers were used to prepare the food. Dish washing was handled by two automatic washers. Wholesome, hot meals were served three times a day and music and refreshments available between sessions.

Most interest was aroused when **Summer Schedule**

With the Churches

ANGELICAN CHURCH: All Saints Rev. N. Brown, Rector. Sunday: 8:30 a.m. Holy Communion; 10:00 a.m. Morning Prayer. (Just for summer months) All Saints W.A. (Evening branch) 2nd Wed. each month.

Miss Vera Kos Wed in Wildwood

Bouquets of pink and white gladiolus adorned the altar of the Russian Greek Orthodox Church in Wildwood on July 30, for the double-ring ceremony of Vera Irene, youngest daughter of Mrs. and Mrs. Fred Kos.

of Moon Lake, and Steve, eldest son of Mr. and Mrs. John Michalchuk, of Wildwood.

ed bodice and skirt, sprayed with seed pearls and rainbow sequins. Her shoulder length veil of embroidered nylon tulle was caught to a matching coronet of seed pearls. Her only jewelry was a single strand of cultured pearls, a gift of the groom. She carried a bouquet of red roses with lace streamer of rose leaves.

Attending the bride were Annie Renoski, of Moon Lake, cousin of the bride, and Betty Luchet, a childhood friend from Carleton Place. They chose afternoon gowns of blue nylon over satin with matching heads bands and white gloves and shoes. They carried bouquets of yellow daisies.

Junior bridesmaids were nieces of the bride, Diana Kos, of Moon Lake and Judy Romanichuk of Rocky Rapids. They wore matching yellow silk organza dresses with white headbands, gloves and shoes; they carried bouquets of blue daisies.

Attending the groom were Dick Michalchuk, younger and only brother of the groom, and Harvey Salis.

Following the ceremony a reception was held at the Wildwood Community Hall where the bride and groom were seated with a three-tiered wedding cake and flanked by pink and white gladiolus. Pictures were taken through the ceremony and reception by Gurns Studio, Drayton Valley.

Mr. John Michalchuk, father of the groom, proposed the toast. For her daughters wedding the brides mother chose a n afternoon dress of beige, with white accessories. A corsage of red roses was pinned on her shoulder.

Following a dance for their many friends and relatives the happy couple left for a honeymoon through the United States.

The bride chose as her going away outfit a beige dress of silk linen with matching duster of organza. She wore dusty brown accessories and her jewelry, a necklace and earring set, was a gift from the groom's father, bought on a recent tour of Russia.

Upon their return Mr. and Mrs. Steve Michalchuk will make their home in Wildwood.

ANGLOMAN V.B.S.
(Cont. from page 3)

The church conducted the V.B.S. in two sessions, with the Junior Group meeting for five days, from August 1st through August 5th, and the Senior Group meeting from August 11th through August 12th.

Supervisor of the Junior Group was Miss Joan Williams, with Mrs. Mel Weaver acting as supervisor for the Senior Group.

(NATIONAL DEFENCE PHOTO)

When Linda Joan Schmidt, daughter of Mr. and Mrs. Fredrick Schmidt, Drayton Valley, Alta., is in training as a navigation pilot at HMCS Sadacona, R.N. barracks at Halifax. When Schmidt attended Drayton Valley High School and was employed as a clerk with the Hudson Bay Company before joining the Royal Canadian Navy in April, 1960 at HMCS Nova Scotia, Edmonton naval division.

FIRST PRIZE WINNER IN THE INDUSTRIAL DIVISION WAS THIS SPACE ACE FLOAT ENTERED BY DOWELL OF CANADA.

PUBLIC NOTICE

The Town of Drayton Valley NOTICE IS HEREBY GIVEN THAT THE COUNCIL OF THE TOWN OF DRAYTON VALLEY PROPOSE TO PASS A BY-LAW NO. 214 OF THE TOWN OF DRAYTON VALLEY BEING A BY-LAW TO AMEND BY-LAW NO. 91 BEING THE ZONING BY-LAW OF THE SAID TOWN.

That BY-LAW NO. 214 authorizes the Council of the Town of Drayton Valley to amend By-Law No. 91 as follows:

1. That that portion of Lot 1 in Block 35 lying to the Western most side and being of approximately 150 feet in width and 300 feet in the full depth of the lot be re-zoned from Industrial to Tourist classification.

A copy of the said By-Law and the Map of the proposed area may be examined in the Town Office at all reasonable hours of business.

A Public meeting will be held in the Town Office at 10:00 a.m. on the 30th day August 1960 for the Council to consider any objections, complaints or recommendations pertaining to this amendment.

Drayton Valley, Alberta.
25th July 1960,
W.G. Johannesson,
Secretary-Treasurer.

PUBLIC NOTICE

The Town of Drayton Valley Notice is hereby given that, under the provisions of the Town and Village Act, the Voters' list of the Town of Drayton Valley, in Alberta, has been prepared and that a copy of the said Voters' list is posted in the office of the Secretary-Treasurer.

The posted list is open for inspection during regular business hours.

J. A. PARRY, publisher of the Rimbey Record and its companion paper, the Elvillie Examiner, was elected president of the Alberta Weekly Newspaper Association at the convention held last weekend in Calgary. Mr. Parry succeeds Mr. Tom Ford, publisher of the Lacombe Globe, as president.

Rimbey is booming since the start of the building of the huge B.A. 25 million dollar refinery nearby. The Town of Rimbey is seeing a modest boom underway as 70 streets are being paved, and utilities installed.

GAS IMPORTS APPROVED First hurdle for the export of natural gas to the U.S. was over come today when the State of California authorized the import of natural gas from Canada.

The words of one oilman "Things will really be popping here now" The Collard plant north of Drayton Valley came a step closer also with the ruling of the Oil and Gas Conservation Board that flaring of gas must be stopped by October 1, 1961.

POLICE COURT..... (continued from front page) liquor in a vehicle and for illegal possession of liquor. Two were fined for failing to report an accident.

Each year it takes less time to fly across the world and more time to drive to work.

THE POTTER'S CHALLENGE

(Cont. from Page 8)

turns into seeming failure in the last steps of its formation. If the potter is wise and sees the cause of the failure, then that piece is a success. If he blames the pot and the kiln and then blindly repeats the same mistake, he has failed. How useless it is to grieve over past mistakes; how much better to avoid repeating the error and to use the good that has been learned.

Yes, it takes courage - but you have courage, because God has given it to every soul. Your success depends only on your use of what you already have. If you have fallen, you are on the point of being an artist of life. Stretch forth your hands and accept the task. You must believe in the law of God, even as the potter believes in the potential of the clay.

Here are four truths that we can learn from the potter:

1. We, like the clay, are the substance of God. There is no limit to our expansion of good, aside from our own self-imposed limitations.
2. Our failures can and should be interpreted as successes. They are signposts that point us easier way to success.
3. We must activate and claim the courage, the strength, and the power that are within us. No man has risen to the heights by sitting and thinking about his problems.
4. Like the potter before the kiln, we must expect our good. Countless blessings have gone unused because men have not been ready to accept them.

You are the potter, and the clay. It is your business to know your moral, physical, and spiritual life after the image God has of you. When you build and shape your life to serve and bless all mankind, all men will arrive to serve you. In a most practical sense, this means greater happiness in every phase of your life.

The potter's thumb press into the spinning clay; gracefully he lifts the sides and the clay rises, doubling, tripling its original height. The clay has become a beautiful vessel.

Accept the challenge as the potter and the clay. Double and triple every phase of your being and experience - and rise toward the limitless heights that are rightfully yours.

FIRE WARNING

Commenting upon the loss of life and serious injury to workmen who were floor cleaning and painting recently at the Coalville School, Alberta Fire Commissioner Austin Bridges said: "The need for extreme caution in the handling of flammable liquids must be repeated and again repeated with the number of 'safety' workmen and supervisors of workmen who use flammable liquids to examine

(continued from col. 1)

the qualities of the liquid so as to avoid danger to life and damage to property from fire and explosion.

There are many explosive and highly combustible flammable liquids under various trade names offered on the market as cleaning solvents and paint thinners. It is very important to know the flash point of each particular product because the fire hazard varies

inversely with the level of the flash point. That is to say, a low flash point flammable liquid has a very high fire hazard rating. As an example, the flash point of wood alcohol is listed in the National Fire Prevention Association hand book of fire protection at 62 degrees Fahrenheit. This means that at 60 degrees Fahrenheit or at a higher temperature flammable vapors are being given off that can form an explosive mixture with the right proportion of air. Given an ignition temperature say, a match or an open pilot light on a stove or furnace, an explosion and fire will result usually with accompanying loss of life or serious injury.

Any flammable liquid with a flash point below 100 degrees Fahrenheit must be considered very hazardous.

Easyford News

Quite a number of local families are entertaining visitors this week. At Pete Huchison's are the Peter Van Innes family of Wetaskiwin, at Nordy's Mrs. Nordy's sister Mrs. McKee of Peace River. The Whitlam family have for visitors Mr. & Mrs. N. Whitlam of Rowland B.C. The elder Whitlam informed us that they are moving back to Alberta. They will live at Barhead Mrs. Whitlam's former home. Mr. and Mrs. Rowland Devey of Stettler are at the George Deveys. Rowland was seriously ill in Stettler hospital a short time ago but is feeling much better. Rory McKee of Wainwright is renewing acquaintance with many people. The Glover boys of Bellevue in the Crow's Nest Pass are staying with their sister, Mrs. Roman Vowk. Also young Don & Ron Kay of Whitecourt 13 year old brothers of Mrs. Gary Hartman with the Hartmans.

B.C. was a popular place for our people to visit this year. Mr. & Mrs. Vic Ball & Gary have just returned from the Okanagan district. Mr. & Mrs. Wayne Faring spent a week with friends at Fort St. John, B.C., and Mrs. J.H. Coward had quite a long holiday with friends at Langley.

Lawrence Hicks of Edmonton who has spent most of the summer holidays with his sister, Mrs. Wally Ziebarth will be going home this week.

The Neizans boys of Nobelford Alberta have been staying with their grandmother Mrs. Earl Huchison.

Government Road crews are now at work improving the bridge approaches, an improvement surely needed.

A second picnic at Park may be built in the area. The Advisory Commission has commented favorably on a site in the Easyford district and if approved work will be done on it next year. It will be on corner land N.W. of Township 50 Range 8 W. 5. It will be about 3 miles north and east of the Easyford Post Office.

ANTELOPE HUNTERS

1960 SEASON—OCTOBER 24-29

1,550 Antelope Permits to be issued.

In 1960, there will be a six-day season on pronghorn antelope in Alberta. This season, open for both male and female antelope, will commence on October 24, and terminate on October 29.

The decision to open antelope hunting this year was handed down by the Director of Fish and Wildlife after a review of the results of the mid-season antelope

aerial survey. These surveys, conducted each year, allow the assessment of pronghorn density by zones which is just one phase of an intensive management programme designed to collect data on animal abundance, sex and age composition of the herd, productivity or rate of increase, causes of mortality, and hunter success and harvest by zones.

Cont. on Page 7, Col. 1

This year's aerial survey—the most intensive ever attempted—has shown marked increases in antelope numbers in all zones assessed.

On the basis of the current pronghorn status in southeastern Alberta, expected hunter success, and expected hunter pressure in this region, it has been determined that a total of 1,550 antelope permits can be issued this year. In future years, when hunters can be distributed in relation to antelope numbers present in each zone, it should be possible to issue even more permits and realize an even greater harvest.

Biological checking stations will again be in operation at key positions throughout the antelope range. In addition to collecting information on hunter success and effort, these stations will implement the assessment of age composition of the harvest and productivity through the collecting of lower jaws and skulls. Hunters can assist in the management of this important wildlife resource by stopping at checking stations before and after they have hunted.

Interviewing an applicant, the player commented, "You want to know how to hunt antelope? The applicant explained, 'Well, a job is so much harder when you don't know anything about it.'"

BASBALL NEWS.

(Continued from page 6)
boys team in the one of their most exciting games to date.

Leduc was first on the scoreboard with a single run in the third inning, while Drayton replied with singles in the fifth and sixth, each due to Leduc error. Olsen added a second run in the eighth inning to tie the score 2-2, but any hopes they had for holding their visitors scoreless in their last turn at bat were immediately shattered as Legionaires proceeded to break up the game by blasting three home runs, one with a man on base. Schneider, first Legionnaire batter, led off the home run parade by belting one over the left field fence. Minutes later, with one in almost the same place, Des then added insult to injury by placing his closet within inches of the other two to add the final score of the game. Drayton Valley then retired the Legionaires in order to end the game with a 6-2 score for Drayton Valley. Gerry Porter pitched fine ball for the first half of the game, but was relieved by Des in the 8th when a burst of wildness loaded the bases with none out. Des then retired the side without a run being scored and continued his fine performance for the rest of the game. Mel Baxter, as umpire-in-chief, called his usual excellent game.

(continued next column)

The second game in this series will be played here in Drayton Valley at 8:30 p.m. on Sunday August 21st, and the third game if necessary, at Thorby the following Sunday.

SKIN DIVERS

Geacings Divers:
At long last we have definite word on the 1960 Alberta Divers Council.

Place: Camp Kinnard (TWCA), Sylvan Lake, Alberta.

Time: From 6:00 p.m. Friday, Sept. 9th to 6:00 p.m. Sunday, Sept. 11th.

Chairman, Drayton Valley Divers.

Notebook

Bobal and Ken McKay were recent visitors to So. Cal. They visited their son Hugh who works for Toro Equipment Company in Los Angeles.

They took in Seattle and other Coast cities on the way and reported that the heat on old 99 Highway was just too much for them so they jumped on over to 101, the Coast Route.

Speaking of the Southland, that tall gal taking cash at the cash register for the Hotel Coffee Shop... She is Dorothy Grant, formerly of Takna, ash; her husband Roy is pushing for Cactus Drilling. She likes cornbread and sweet 'taters, Southern style.

Back in D.V. are two former residents... Mr. Karl Vohar and the former Miss Mary Judge. Mary is now Mrs. Vohar. They were married in Germany several months ago.

Karl says they took their first honeymoon in Holland, then moved on the boat coming over again to this country. Of course, returning to D.V. could be counted like a honeymoon.

Mrs. Vohar will teach in Drayton Valley again this year. Karl is back with Halliburton. Since leaving here the former Miss Judge taught "Primer" in native New Zealand. "Primer" is the first four grades of elementary school.

The Vohar car still bears its original German license plate. It is called an Auto Union, but was formerly called D.K.W., which meant "German Children's Car" or, perhaps more accurately, German Small Car.

Transferred to Edmonton recently was Herman Wollen. The Wollens' hated to leave D.V. However, to help keep in touch they requested that the P.M.A. be sent them each week.

Mrs. Ida McArthur, who worked in the local postoffice for a long time was in Drayton Valley recently on a visit. She was a guest of the Millens.

A medical student from Jamaica, B.W.I. has been in town for a few days. He is attending the Medical Training School in Dama, Jamaica. The institution is a famous medical school operated by the Seventh Day Adventists.

Name of our visitor is Lindbergh Galloway. He and a friend are selling children's "Bible story books to help pay their way through University. Mr. Galloway's father is a Member of the House of Representatives in Jamaica.

On our recent trip to south-central Idaho we stopped at a 99 Service station just this side of the line. There, serving gas, was Mr. Clint Vickery, of Drayton Valley and Violet Grove. He left here last night to go down there to help out some friends of his.

Enjoying the Parade and Rodeo in Drayton Valley recently were two visitors from far-off Liverpool, England.

Relatives of Mrs. Caroline Green, employed with the Drayton Valley Hospital, said they were Mr. and Mrs. Barnford. They were quite taken up with the Canadian scene and general way-of-life here.

Though a longtime opponent of Alberta's present provincial government we felt a little more kindly disposed toward them now... since we took in the Alberta Weekly Newspaper Association convention in Calgary last weekend, proving the truth of the old adage that the way to a man's heart is through his stomach.

Atta. Government was host for a very excellent banquet served Saturday evening in the Palliser Hotel Banquet Room, to the convening newspaper men. Speaker for the evening was the Hon. A. Russell Patrick, Provincial Secretary. Mr. Patrick gave a very excellent summary of various government legislation which he felt had helped all the province.

VAN EMBER-FALD NUPTIALS

Juniors bridesmaids were Doreen Van Ember, sister of the bride, and Doreen Fald, sister of the groom.

Ushers were Mr Gary Fald, brother to the groom, and Mr Donald Van Ember, brother of the bride.

To receive the guests the brides' mother was clad in stone grey suit, with rose accessories, and wearing a white corsage. The grooms' mother chose a pale blue dress with white accessories and a white rose corsage.

At the reception, held in the Club Cafe dining room at 6 o'clock in the afternoon the toast to the bride was given by Mr Curtis Fagerwall, to which the groom very fittingly replied. Following the reception a dance was held in the Lindale Community Hall.

Mr and Mrs Fald will live in Drayton Valley, where Mr Fald is employed.

"The father of the bride, when the moment came to give away the bride, suddenly he looked up and exclaimed, 'Dagone if I won't be married to you!'"

His wife walked over and proved at the time he was not the bride. She asked, 'What do you say, Ed?' 'I don't know,' he answered, 'I just learned to read yet!'"

In a beautiful mid-afternoon wedding Miss Dianne Van Ember became the bride of Mr Leonard Fald, in Drayton Valley United Church, on Friday, August 5. The Rev. A. Wright performed the double-ring ceremony. Miss Pickup was organist for the happy occasion.

The bride was beautiful in floor length lace net over tulle bridal gown, with rhinestone studded neckline, lace bodice and half skirt of lace, with lily-point sleeves. Her finger-ring veil was caught up with a rhine stone tiara crown. She carried a bouquet of white and pink roses. The bride was given in marriage by her father, Mr David Van Ember, Sr. Matron of honor, Mrs Orilly Kryg, sister of the groom, was dressed in pale green with long gown of nylon chiffon over pale green tulle. She carried a bouquet of red and white carnations. Attending the groom was Mr P. Kryg, brother-in-law to the groom.

Vol. 5 No. 33 August 25, 1960. A. Piffard, Publisher. Box 150, Drayton Valley, Alberta.

Inquest: Robert McLaren Death

On July 25th, 1960 Coroner Dr. T. H. Brooks held an inquest in the Town Hall into the death of Robert McLaren.

The jury found that Robert McLaren died on 18th July in The Royal Alexandra Hospital due to being crushed between a truck and a cat walk on Oil Lease Pan American CIL, 14 miles N.W. of Drayton Valley on July 17th, 1960 accidental death.

Three recommendations were made as follows:
1. That trucks using vacuum air hand brakes should be equipped with pressure and holding gauges.

2. That trucks should be equipped with blocks to be placed under wheels before swamps go behind truck.

3. That drivers make sure all safety devices be fully applied before leaving truck.

Members of the jury were: Mr. Jack Falls, Mr. J.M.L. Matlock, Mr. L. Barnard, Mr. Stewart, C. Luman, Mr. Wm. E. Nordquist, Mr. W.F. Davies.

T.H. Brooks,
Coroner.

Highschool Hearing Completion

Almost completed is the new addition to the Frank Maddock Highschool in Drayton Valley, which will add nine classrooms and a library, an additional total of some 11,000 square feet of floor space, to the school. The new addition is of cement block construction.

Work was started by Stony Plain School Division building department under the direction of

Superintendent Felix Knorr, in early summer and has been rushed to completion, with some fifteen men employed by the School Division on the project. It is expected that the new addition will be fully completed by Sept. 8th. Original plan had been to complete the school by September 1st, but the work was delayed by late arrival of lockers and black boards. Stony Plain School Division also has another teacher's age under construction. When fully completed and landscaped the fourteen room highschool will be a distinctive building in this community. One which we may proudly show off when taking visitors on a tour of the town and district.

Picture on bottom of page

New Addition to Hospital Started

New West Construction is pushing work on the fifteen bed addition to Drayton Valley Municipal Hospital. The project will cost approximately \$65,000, exclusive of furnishings and equipment, which are expected to cost in the neighborhood of \$25,000.

The projected fifteen beds will include a four-bed pediatric ward, three private ward beds and eight semi-private ward beds.

It is expected that the last day of November should see the project completed and ready for use. The new addition will bring to 35 beds the Drayton Valley Hospital. A unique feature of the new addition will be piped-in oxygen and suction to every room.

Picture on page 4

Stolen Safe Recovered

A safe stolen one weekend from the Crown Lumber Company in Drayton Valley was recovered at an abandoned farm in the Stony area, last week. Thieves

evidently had loaded the safe into a truck or pickup after breaking into the lumber company office and had taken it to the abandoned farm where they attempted to open it by breaking off the knob. This failing they took an axe and hatched into the side of the safe until they had reached the interior.

The safe was completely ruined. Several hundred dollars in money and a number of cheques had been placed in the safe when it was locked for the evening before the break in. All the money and cheques were missing when the safe was discovered, as well as a number of other papers. However, a few papers were found near the abandoned safe. Police are checking the safe and the few remaining papers for fingerprints and expect to make arrests in the near future.

Parking Meters

When the street paving program is finished in Drayton Valley something "new" will be added to the streets. The new feature for Drayton Valley Streets will be parking meters, sometimes called "one-arm bandits".

Most streets will be one-hour parking zones, some will perhaps be fifteen minutes, half-hour or two hour parking zones eventually. It is expected that the new meters will help downtown merchants as vehicle will be kept moving more regularly and it should be easier to find a parking place in front of or near a downtown store.

POLICE COURT

Drayton Valley Police Court continues to have well-filled dockets each time court convenes. In last Tuesday's court, before Magistrate Clendenning, four cases of intoxication were dealt with, three cases of illegal possession and one case of illegal consumption of liquor (continued on page 10, col. 3)

District Personalities

Mr. Michael Gormley

Meets the new Recreation Director for the Town of Drayton Valley. Mike was born in Sherbrooke, Quebec, of Irish parents. He attended elementary school in Quebec and then took high school and two years in University of St. Mary's College, in Brockville, Ontario. His father was in the construction industry and worked over various parts of Quebec and Ontario.

Mr. Gormley spent his summers while in school in surveying and as assistant to civil engineers. After college he spent four years as a sporting goods salesman with a large sporting goods firm in Sherbrooke Quebec. He then came out to Western Canada and hired on with the C.N.R. as timekeeper and contact-man for the Edmonton office, working with extra gangs in Saskatchewan and Alberta.

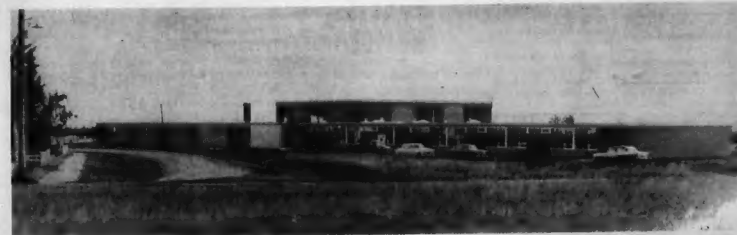

Very sports-minded Michael has played quite a bit of hockey and football. He played football

with St. Mary's and later at Sherbrooke, and played hockey also. While serving as goal-keeper he suffered a severe eye injury and has played but little hockey since, but he still maintains his avid love for the game.

At one time he was rated as a first-class Amateur boxer, fighting in the welterweight class, 146 pounds. He has coached and trained boxers also. He has coached football and P.E. and is intensely interested in both.

He came to Wainwright in 1957 and the same year took over as assistant coach of the Wainwright boxing club. He took over as coach for the club the following year and worked up a good string of boxers as our boys who went from our local club to the boxing matches in Wainwright last spring can testify.

He went to work as Public Relations Officer at bladed Park near Wainwright from there he (continued on page 10, col. 3)
